SUPPORT THE NEXT GENERATION OF INNOVATORS AND ENTREPRENEURS!

At the U of A, students have opportunities across a variety of classes and extracurricular programs to get hands-on exposure to innovation and entrepreneurship, but they are **limited by resource constraints to accelerate their ideas.**

Right now, students are well underway working on solutions in each of these classes and programs, and your donation will directly support (1) customer discovery (2) market analysis and/or (3) prototyping!

Funds will be awarded in a pitch competitions held in spring & fall semesters.
